FEW SOCIALISTS IN CONGRESS WOULD MAKE THE OTHERS HUSTLE

By Victor L. Berger.

"The Social-Democratic proposition that at the age of 60 years every man shall be entitled to a pension provided he never received an income beyond a specified amount per year does not arouse the chorus of universal approbation which was probably anticipated by its author. Probably its author was a benevolent visionary, eager that his fellow men should have the prospect of ease and luxury, and never considering very closely the practical question of who would foot the bills. question of who would foot the bills.

"There is more than one point of view from which this civil pension proposition seems vicious. A fundamental objection to it is that it would tend to paralyze industry and enter-prise. A man with his hope fixed on a pension not to be paid if he raised himself and the ranks of the moderately prosperous would hardly feel like combating indolence too hard, for fear of injuring his prospects. There are too many lazy people in the This would make more.

"Why is it that there should be a proposition to pension elderly men, and none to pension elderly women? Many a woman who has worked hard all her life, either for relatives or for employers paying her wages pitifully small compared with what the same quality and quantity of service would command from a man, finds herself in advanced age without the means of independent support. Would not society do better to consider work of the best for the state of the state of the best for the state of th ter to pension women for working than to pension men for holding back and not working as hard as they might?

"After all, however, a fundamental question is, how would After all, however, a fundamental question is, how would the great sums required for old-age pensions be raised? Of course, they would have to be raised by taxation, and by reason of grinding taxation, some people possessed of little property would find themselves unable to hold it. A system which would encourage indolence and make paupers by overhurdening small property owners is surely not to be welcomed with open arms by American workingmen. —Evening Wisconsin (Mil.), July 20.

YELL, I happen to be the "benevolent visionary eager that his fellow men should have the prospect of ease and luxury"—
if an income of \$12 a month will put any man into "ease
and luxury"—and I am sure the editor of the Evening Wisconsin would require a little more than \$12 a month in order to live in ease and luxury.

Our friend of the Evening Wisconsin is also mistaken when he thinks that our plan does not include women.

Our plank reads as follows:

"To enact a law granting every wage-worker over 60 years of age, who has carned less than \$1,000 a year and has been a citizen of the United States for sixteen years, a pension of not less than \$12 a month for the rest of his or her life."

The term trage-worker means a woman as well as a man. It any person working for wages, whether a clerk, stenographer, hired girl or washer-women, or a railroad engineer, typesetter or bookkeeper. We agree with the Evening Wisconsin absolutely on the man question, or rather we disagree with him absolutely, because the Evening Wisconsin does not want to pension the women either.

The fundamental question as to "who is to foot the bills?" is a question which is easily answered. Why, of course, the workmen will foot the bill. They are raising so many thousand millions every year for the capitalists, for the officials, for the army and navy and for the innumerable other things. They ought to be able to get back at least a little share of all that for themselves as an old-age pension.

Inder our plan there will be not quite a million men and women receiving a pension of \$144 a year. That would amount to about \$144,000,000 a year—a mere bagatelle for Uncle Sam, who was spend-\$101,671,881 for the army in 1907, and \$97,606,595 for the navy,

not figuring the new battleships.

Besides, the United States pays a pension to 967,371 persons now, to the veterans of the Civil War and their dependents, in 1907 it was \$138,030,894.22. There are still 558 pensioners of the war of 1812, and even three daughters of the Revolution of 1776.

Other countries have been paying old-age pensions to the work-ingmen for a long time. Germany enacted a sick benefit law in 1883, and an old-age pension law in 1889. A pension is drawn after five years of payment by all when reaching 70 years, and at any age if disabled from earning one-third of the previous wages.

The dues for these insurances are paid partly by the insured (man or woman) by the wage-worker, partly by the employer and partly by the state. The employer is held responsible for the payment. By law he must pay one-half and often agrees to pay all without deduction from wages. For accident insurance he must pay all of it anyway, under the law. Dues are paid in stamps sold at postoffices and pasted on each workers' pass book. By the three kinds of
insurances—sick benefit, accident and old-age pension—every wageworker in the country earning not over \$407 a year is insured—a total of over 14,000,000 persons.

Austria established compulsory insurance for sickness and accident in 1888, and in 1898 a plan for old-age pensions. France has had compulsory accident insurance for minors since 1894, dues being paid one-half by the employers and one-half by employes. The government is now working on a bill to give an old-age pension to every working man and working woman in France. A bill of the same type is now pending in the English Parliament and on the very day when the article of the Evening Wisconsin was written the bill passed the House of Lords with a majority of 123 to 16—because both of the old English parties had agreed to it—both admitting that they were afraid of the English Socialists who had made such terrific gains at the last general election.

And if we elected some Social-Democrats to Congress in this country, you would see how quickly the old parties would try to get things for us!

Denmark, Switzerland, Sweden and Norway are all now considering various forms of compulsory accident insurance and old-age

New Zealand, since 1899, has paid \$87.59 to every person, man or woman, past 65 years of age, who has kept sober for the preceding five years, and who has lived twenty-five years in the colony, and whose income from other sources is less than \$260. New South Wales started a similar pension fund in 1900, paying \$2.43 per week to every person over 65. Why not also in America?

Marcus A. Hanna, the brightest statesman of the capitalist class, forced an old-age pension plank into the Republican national platform of 1900. But the plank was quietly dropped by the blockheads who succeeded Mark Hanna in the leadership of the Republican party. They much prefer to make deals with Tanumany and the Democrats of the Bryan type—to the enactment of any measures which may mean something in the end.

It is ridiculous to claim that such a system would encourage indolence and make paupers of the workers. The average wage of the
American workmen is less than \$450 a year—his earning ability begins to decline with the age of 45—some railroads set even a lower
limit—and, as a rule, the capacity for earning a livelihood ceases at the
age of 60.

How is a man, especially if he has a large family—and work-ingmen usually serve their country also by bringing up a family— to save a competence for his old age out of an average wage of 450 per annum? It is the present capitalist system that is making

Manifestly this is a break. For capitalism was making hay out of the fact that it had become an unwritten law that to criticise the juliciary was contempt of court. And now, with Taft's permission, the people will speak their contempt out loud—and it will certainly do the courts good.

The chairman of the Wisconsin Democratic convention this week devoted quite a little of his speech to Socialism. He was at great pains to deny that Jesns was a So-cialist "as the Soqialists claim." The Socialists do not claim any such thing. What they do claim has been expressed by the Encycloust as capitalism has been an evoution from feudalism. Christ was a communist. Furthermore, the life-work of the wage-earner in the factory, minc, railroad, steamship, etc., is far more dangerous than that of a soldier—and is infinitely more useful. There are more men killed and disabled in the mines and factories and the railroads every year than were killed and disabled during any year of the Civil War. (During the last fiscal year 122,855 were maimed and 11.830 killed on the railroads alone.) Therefore, even from the standpoint of risk, the soldier of the common weal, who works and dies for the country—the workman—ought to be entitled to pension fully as much as the soldier of the

It is not contempt of court to criticise the judiciary. Taft says so. This is a sort of disarming of predatory capitalist interests that have been in the habit of choosing the judges and then daring the people to criticise their decisions or their labor injunctions.

Taft was practically forced to declare himself, for he has been dogged for the last year by the ghosts of his miserable labor injunction work and he would like to exorcise the ghosts to increase his chances of election.

Mr. Gompers says he never said he would deliver the labor vote to Bryan, but that all he did say was that the working people should compare the labor features of the two old party national platforms. A GROWING DEMAND FOR THE TRUTH

The capitalist interests seem determined to do all in their power to help along the agitation for Socialism. They have just begun a rehash of all the old, worn-out attacks on Socialism, and have put their ablest intellectual prostitutes on the job. From now till the end of the fall campaign certain magazines and newspapers will reap a rich harvest. Their editors have discovered that the Socialists pay more attention to an attack than they do to a tolly. We owe them thanks for circulating untruths about the movement, for they thereby prompt many to seek for the truth, which furnishes us with abundant op portunity for effective propaganda. JUSTICE AND CHARITY

A Milwaukee Churchman Preaches a Notable Sermon on the Subject. "A miserable travesty upon Christian charity," the distribution of elothing and food by the church to the poor of its congregation. The Rev. Selden P. Delany of All Saints, cathedral,

wanker, so termed the practice in a sermon preached last Sunday.

He took exception particularly to a charity from rich to poor. The system does wrong to the poor by pauperizing them, robbing them of self-respect and pushing them a little further down hill to lives of shame and crime," said the Rev. Mr. Delany. "It often harms the rich by making them proud and self-serisfied and by easing their consciences so that they may go and oppress the poor

"And it harms the church, for it gives the poor an idea that the church is the distributing agency for the rich. It makes them feel that the church is on the side of the rich and winks at their acquisition of unjust wealth.

The poor want justice, not charity; a workingman on staryation wages does not want a check from some annable old lady who has grown rich from dividends produced by those starvation

"The ordinary conception of charity is that it is a Christian obligation binding upon the rich to give of their possessions to the poor. People of the middle class do not feel charity one of their pressing obligations. Charity is regarded today as one of the diversions of the rich.

The church, too, engages in works of charity. Each parish has its fund, which is called the 'poor fund.' The church should abolish this fund. The real mission of charity is something deeper and more Godlike. We can see plainly that we would not, were we in the position of the poor, like to have our rector come around and give us east-off shoes or a \$5 bill from 'a kind lady who prefers

The church should, by private conversation, by public agitation, by spreading literature, by voting to change economic and in-dustrial conditions, live up to the charity of the master.

Meanwhile the church should not, of course, close its eyes to present distress. workers of the United States and of all citizens who sympathize with the great and first cause of labor.

We are at this moment in the midst of one of those industrial breakdowns that periodically varalyze the life of the mation. The much-boasted era of our national prosperity has been followed by one of general misery. Factories, mills and mines are closed. Millions of men, ready, willing and able to provide the nation with all the necessaries and comforts of life, are forced into idleness and starvation. Within recent times the frusts and monopolies have attained an enormous and menaring development. They have acquired the power to dictate the terms upon which we shall be allowed to live. The trusts fix the price of our bread, meat and sugar, of our coal, oil and elothing, of our Taw material and machinery, of all the necessities of life.

The present desperate condition of the workers has been made the opportunity for a renewed onslaugit on or aganized labor. The kiehest courts of the country have within the last year rendered decision after decision and priving the workers of rights which and the formal provided the power of the possessing of the country have within the last year rendered decision after decision after decision and provided the powers of rights which and the interest of the possessing of the country have within the last year rendered decision after decision and proving the workers of rights which and the interest of the parties, and all parties other than the Socialist parties and controlled by the representatives of different groups of the ruling class.

The present desperate condition of the workers has been made the opportunity for a renewed onslaught on organized labor. The highest courts of the country have within the last year rendered decision after decision depriving the workers of rights which they had won by generations of struggle.

The various "reform" movements and parties which have sprung up within recent years are but the clumsy expression of widespread popular discontent. They are not based on an intelligent understanding of the lüstorical development of civilizaton and of the economic and political needs of our time. They are bound to perish as the numerous middle class reform movements of the past have perished. The attempt to destroy the West-ern Federation of Miners, although defeated by the solidarity of organized labor and the Socialist movement, revealed the existence of a far-reaching and nuscrupulous conspiracy by the ruling class against the organizations of labor.

In their efforts to take the lives of the leaders of the miners the conspirators violated the state laws and the lederal constitution in a man-ner seldom equaled even in a coun-try so completely dominated by the profit-seeking class as is the United States.

en the working class in its fight for the realization of this ultimate aim, and to increase its power of resistance against capitalist oppression, we advocate and pledge ourselves and our elected officers to the following program: The congress of the United States has shown its contempt for the in-terests of labor as plainly and un-mistakably as have the other branches

refersts of labor as plainly and unmistakably as have the other branches of government. The laws for which the labor organizations have continually petitioned have failed to pass. Laws ostensibly enacted for the benefit of labor have been distorted against labor.

The working class of the United States cannot expect any remedy for its wrongs from the present ruling class or from the dominant parties. So long as a small number of individuals are permitted to control the sources of the nation's wealth for their private profit, in competition with each other and for the experiment experiment of individuals are permitted to control the sources of the nation's wealth for their private profit, in competition with each other and for the experiment of the purpose of assisting their unemployed members, and shall take such other measures within its power as proposed by capitalist reformers can avail against these fatal results of utter anarely in production.

Individual competition leads inevitably to combinations and trusts.

"Class consciousness will exist as long as the present anarchistic and wasteful system exists. The trusts on one hand and the labor unions on the other is evidence of this fact. Labor unions were organized for the purpose of meeting the class consciousness of capital. The trade-unionist knows how the un-organized laborer is pushed in the mud. They don't ask him whether a reduction is acceptable to him or not. They simply 'cut' him-and he can do nothing. In our own miners' union, why are our prices what they are, why didn't we get a reduction at the last settlement? Because we recognize class consciousness on the other side, and to meet it we, too, must become class con-scious. It is self-preservation—a law of life.

and not to exceed 1 per cent on savings accounts, while we pay 5 per cent interest.

There are many who, not caring to make deposits in banks, keep their money at home. Certainly this is not a safe method. You are in constant danger of loss by theft fire, etc. In addition to this danger, it earns no interest whatever. Even if you have only twenty-five or fifty dollars, it's safer to purchase honds.

You are simply losing money if you pass this excellent offer without accepting it. The longer you delay, the more you lose. And if you delay too long you will lose this chance altogether. This issue is for \$12,000, of which over \$8,000 is taken. Less than \$4,000 remains. If you want your money to carn from two to five per cent more than banks pay it will be necessary to file application for bonds at once. They can be had in denominations of twenty-five and fifty dollars each. Speak quick. Stophelping your enemies! Help yourselves! The sooner you begin this policy, the better for ell of us. Take up this matter now or it may be too late.

The author says: "To intelligently understand the subject we must have a clear conception of the principles of Socialism. These are definite and concise. In principle we stand apart from all of the old political parties and have nothing in common with any of the other parties. Economic systems do not appear spontaneously, but they develop in accordance with well defined economical laws. To hasten the realization of the economic administration of Socialism, we must begin to lay its foundation, we must serect the structure from below upward"—in other words, we must show practical constructive activity.

The Socialists of Florida have nominated Comrade A. J. Pettigrew for governor upon a con-structive platform. The platform demands "state ownership of all industries organized on a scale suitable for state administration." Also "adoption of any and all possible measures that will directly or indirectly improve the condition and increase the power of the working class."

The national executive committee has favorably considered the proposition to charter a special train for the speaking campaign of the party presidential candidates to make a trans-continental tour, covering the period from Aug. 31 until election day. The approximate cost will be \$20,000. If the project is to be a success the funds must be gathered within a period of one month, and contributions from all party members and sympathizers are solicited for a fund to start the Socialist special train. If a sufficient amount is not secured the contributions made for this purpose will be returned. Send in your subscriptions at once to the national office of the

ternational festival in the frontier town of Schaffhausen. The last time a similar festival was artime a similar festival was arranged it was on German soil in Constance, when Bebel, Victor Adler and Greulich, representing respectively Germany, Austria and Switzerland, were the appointed speakers. Then, however, the German government took fright and forbade Adler and Greulich to speak on German soil, so that the assembly had to adjourn to a place over the Swiss frontier to hear them. This time Switzerland is chosen, and the meting will be addressed by Ladelour for Germany, Percerstorfer for Austria, Grimm, and Bauer for Switzerland. The object is naturally to demonstrate the internationalism of the proletariat as opposed to the Chanvinism of the bourgeoisie.

> Fred Brockhausen, Sec. The SUPREME Court!

"It is easy to see in the exaltation of the Federal indictary a survival of the old mediaeval doctrine that the king can do no wrong. In fact much the same attitude of mund which made monarchy possible may be seen in this country in our attitude toward the Supreme Court. As home as the this country in our attitude toward the Supreme Court. As long as the people reverenced the king his irresponsible power rested on a secure foundation. To destroy the popular belief in his superior wisslom and virtue was to destroy the basis of his authority. Hence all criticism of the king or his policy was regarded as an attack on the system itself and treated accordingly as a serious political crime. ... There are indications ... that popular faith in the infallibility of the Supreme Court has been much shaken in re-

years...

t is but natural that the wealthy
influential classes who have been
chief beneficiaries of this system should have used every means at their command to exalt the Supreme Court and therefore secure general acquiescence in its assumption and exercise of legislative anthority."

Prof J. Allen Smith, University of Washington.

than one. The meetings of the Central Committee are improving, both in point of attendance and in the way business is transacted. At the last meeting every branch was the last meeting every branch was represented which, as organizers represented, which, as organizers know, is a rare occurrence.

A goodly number of our members are trying the principle of co-operation in a local way, with a marked success, by conducting a co-operative grocery store. They held their first annual pienic at Mid-way Park, Sunday, July 19, with Comrade Emil Seidel of Milwaukee as the principal speaker. He was preceded by Comrade Nielsen, chairman of the executive committee, who gave a short history of the lke's "thanks" to the printers for past favors. How do they like it?

Comrade Seidel made an excellent impression, which resulted in several members being added to good success, and can report a the party roll already, with more to narked improvement in organization work.

RACINE is busy in more ways tive Society.

KENOSHA is planning a big picnic, to be held at Schend's Park, on Sunday, August 2, and the comon Sinday, August 2, and the com-rades there expect to make a grand success of it. A good time is as-sured and the financial results should be large, as the park is lo-cated within the city and has a reg-ular Sunday patronage. The com-mittee is extending a cerdial invi-tation to members and friends liv-ling within traveling distance. They ing within traveling distance. Don't forget the demonstration of the Brewery Workmen tomorrow! Will you be there?

When Satan read that sermon of Mel. Hoyt's in the Daily News it "mada him smile!"

The introduction of vacuum cleaning in the public schools is a big gain from the standpoint of the health of the children. A good thing-push it along!

Stephenson has men hired to secure signatures to his nomination papers at so much per name. It is a terrific expense for an economical old millionaire, but is worth it.

Ald. Kane acted as general manager and his brother as attorney for a saloonkeeper who got a license in the council last Monday. Unless a saloonkeeper has pull with aldermen these days he must take his administration chances.

Hore could be do it! How could Mel. Hoyt face a convention of the hungry, unwashed Democracy and feed them on scriptural texts! Or did the presence of the unwashed confuse him into thinking he was in a Salvation Army barracks?

What Mel. Hoyt does not know about Social-Democracy would fill v library!

There is one kind of a "dead lev el' we will not have under Social-ism, Mel. We refer to the dead level of graft which is represented by the average Democratic conven-

If Mel. Hoyt is the new savior of Democracy, Dave Rose must be he John the Baptist! And may we be permitted to ask Mr. Hoyt the rreverent question: If Jesus Christ came to earth, which group of De-mocracy would he be likely to join, he New York Tanmany, the City Democracy of Milwaukee, or the ook County Democracy of Chi-

Before the war the Democratic party was mainly the party of the slave owners and exploiters. Now it is the party of the grafters, pimps, thieves and scalawags. If there ever was such a thing as a thieves' party in the United States it is unquestionably the Democratic party. Mel. Hoyt ought to know this— he has said as much in his paper

When Corcoran appointed the coincil committees and made the Democrats a minority on the license committee, people wondered. Now they need wonder no longer. By means of secret sessions the committee can do things and the two Democratic members can oppose divekeepers in the star chamber meetings and then go outside and blame it on the other members of the committee. If they must hold star chamber sessions, let there also be a record kept of how the committee members vote.

and Thursday? Who cracked the whip? It would be interesting to have the facts. Boden's letter is interesting reading, and his flaying of Stephenson is a merited one, yet the burden of his letter is a desire for a return to the old times when this state was in the clutch of colors? Instead of scoring Bierstead have seenthing to the place shown up in its true want the place shown up in its when this state was in the clutch of as conscienceless a lot of capitalistic political bloodsuckers as ever disgraced the name of the country in any state of the union. There has been progress made since those days, but Ike Stephenson was only a pretender in the reform, as recent events so abundantly show.

Bicrsach and consider him the type of man who is entirely unfit to represent the people, but in this case Ald Walter must have been in a give away mood last Monday. At the northwest corner of Fourth and Wells streets stands the Lewis hotel. Expression of the people, but in this case he got one on the hypocritical administration all right. And the laugh is on you, too, Ald. Walter!

> ice trust. Is this the reason none of the morning papers published Ald. Melms' resolution introduced in the council Monday exposing the hypocrisy of the ice monopoly and paving the way toward a mini-cipal plant! A pretty state of things truly. The one-day picnic given by the ice monopoly at Mr. Beggs headquarters was one of the most transparant things ever pulled off in Milwaukee—yet none of the daily papers commented on the significance of it. Was there a reason? Ald Melms' resolution appears in full at the top of the next

MUNICIPAL ICE! GRAND PICNIC AND
